

HP LIGHT FLOOR SHIELD™

LIGHTWEIGHT ALUMINIZED CLOTH MAT

APPLICATIONS:

RATED TO:

1100°

GLASS PAD
INSULATOR

FRAY
RESISTANT
SEAMS

GROMMETS AT
CORNERS MAKE FOR
EASY INSTALLATION

HP Light Floor Mats are light weight, cost effective thermal barrier mats. They are constructed of a ¼" glass pad insulator compressed between a layer of high temperature aluminized and fiberglass cloth. This is designed to reflect radiant heat away from vital components. Easily fits to contours and bends, making it great for insulating floorboards and firewalls. Face aluminized side towards source of heat. Installation is easy with the included brass grommets; simply use a screw or rivet to mount. Custom sizes available.

INSULATION TYPE: RADIANT HEAT AND DIRECT CONTACT

USES: HOODS, BODY PANELS, FLOOR BOARDS, ENGINE ROOMS

PART NO.	DESCRIPTION
911208	HP LIGHT FLOOR SHIELD; 12" X 8"
912412	HP LIGHT FLOOR SHIELD; 24" X 12"
912418	HP LIGHT FLOOR SHIELD; 24" X 18"
912424	HP LIGHT FLOOR SHIELD; 24" X 24"
913618	HP LIGHT FLOOR SHIELD; 36" X 18"
913624	HP LIGHT FLOOR SHIELD; 36" X 24"

HP TORCH BLANKET™

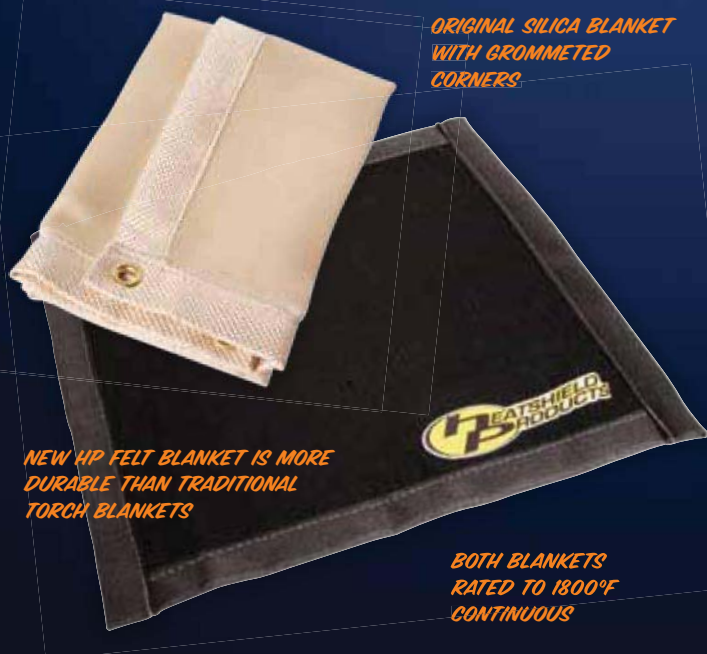

SLAG AND SPARK RESISTANT BLANKET

APPLICATIONS:

RATED TO:

1800°

ORIGINAL SILICA BLANKET
WITH GROMMETED
CORNERS

NEW HP FELT BLANKET IS MORE
DURABLE THAN TRADITIONAL
TORCH BLANKETS

BOTH BLANKETS
RATED TO 1800°F
CONTINUOUS

Protect your race car's critical parts while making repairs on site. HP Torch Blankets™ make it convenient to make repair welds without disassembly or returning to shop, saving time during race preparation. Our original torch blanket is made of silica and our new torch blankets are made of our HP Felt™ which makes them durable and long lasting vs. traditional welding blankets. We have included brass grommets on the 18" x 18" welding blankets at the corners to make it handy to mount anywhere a quick repair is needed. Our HP Felt™ blankets are black with a dark grey binder. All HP Torch Blankets™ are capable of withstanding 1800°F continuous.

INSULATION TYPE: DIRECT CONTACT **USES:** WELDING
