

# PART NO. 86360

## Instruction Sheet

### GM CAM PLATES

---

*This part should only be installed by personnel who have the necessary skill, training and tools to do the job correctly and safely. Incorrect installation can result in personal injury, vehicle damage and / or loss of vehicle control.*

---

1. Take alignment reading to determine if caster/camber change is needed.
  2. Raise and support vehicle by lower control arm.
  3. Remove existing out alignment adjuster cams on the upper control arm.
  4. install No. 86360 cams in the same orientation as the stock cams.
  5. With nut installed but not tightened, adjust camber/caster by inserting 5/16" hex wrench in hole of cam.
  6. Tighten nuts to manufacturer's specification and recheck alignment.
