Key benefits of wind deflectors

- The Love The Drive™ wind deflector extends your top down driving season. You can start driving earlier in the spring, drive later into the fall and keep your convertible nice and cool even on the hottest days.
- The wind deflector dramatically decreases the amount of wind through the cabin. Wind back draft is reduced by up to 75%, which nearly eliminates wind buffeting and turbulence in the interior of the car. With a Love The Drive™ wind deflector it will keep the wind down and you looking great.
- The wind noise is also significantly lower, allowing you a more enjoyable drive. Lets you listen to music or talk to friends, even at highway speeds.
- European engineering and styling, enhances the visual profile of your convertible.
- The wind deflector arrives fully assembled and can be installed in minutes. Most models require no tools, others only a screwdriver or small wrench and will take only a few minutes to install.
- After the first installation, the wind deflector can be installed and removed in seconds.
- No permanent modifications or drilling are required to your car.

ABOUT LOVE THE DRIVE

Love The Drive™ Philosophy

- * We build great products to help our customers enjoy their convertibles for years to come.
- * We design our wind deflectors to the highest standards.
- * Love the Drive™ offers a no-questions-asked, 30-day money back guarantee and a one-year warranty against defects. No fine print, no "legalese".
- * Try it - you'll love it!

Love the Drive™ makes only wind deflectors - nothing else. We spend all of our time and energy on making the best possible product. We only use the highest quality materials to ensure we deliver the best product possible, with the industry-leading warranty.

Love The Drive™ Mission: Our Mission is to help convertible owners enjoy their top down driving even more.

Dan Fawcett is the principal behind Love The Drive™, I have been fascinated by convertibles from a young age. There was something about those convertibles that I just couldn't resist. They just looked cool and the people driving them always looked like they were having fun.

As part of SEMA (Specialty Equipment Market Association), Love The Drive™ is connected to a unique industry dedicated to the enhanced performance, appearance and handling of all types of passenger cars, light trucks and recreational vehicles. This helps us in our quest to find new ideas and products that will make your top down driving experience as enjoyable as we can.

Satisfaction guarantee and return policy;

All Love The Drive™ products are covered by a one year manufacturer's warranty which you receive when you receive your product.

Love The Drive™ offers a no-questions asked 30-day money back guarantee. Please be sure to keep all original packaging material.
