Chrome-Tech™ Bumpers and Moldings

Inspired by the icons of the 60' and 70's, yet designed with the latest technology. Chrome-Tech Accessories are constructed using chrome film laminated to TPO, the gold standard in automotive plastic. The results are an extremely durable, lightweight, and easy to install product. Guaranteed to not rust, crack, flake or peel. This is not just a bumper cover. Chrome-Tech Bumpers mount to existing fascia with three pre-taped thermoformed inserts. These brackets lift the Chrome-Tech™ Bumper off the fascia for a more authentic look. 3M™ attachment tape insures a secure adhesion. No permanent modifications to the vehicle are required. *Application: 2010-2011 Camaro. All Models.*
