TR Timing Belt Guide

PRODUCT FEATURES

TR timing belt guide is an easy and efficient modification for all high powered EJ25 / EJ20 engines. TR guide is made of thick billet aluminum that replaces the factory guide. It's material strength securely adds more tension than stock guide and create smoother belt track that prevents timing belt jumps and skips when the car is in a constant state of high RPM. A must have modification if you're planning on tracking your car.

APPLICATIONS

- Subaru Impreza all Model (EJ20 / EJ25)

CONTENT OF KIT

- Timing Belt Guide x 1
