

Exhaust Manifold *for Mitsubishi EVO X (4B11)*

PRODUCT FEATURES

TR EVO X Stainless Steel Exhaust Manifold is machine welded, no joint pipes and with excellent lost wax finished flange. It has been designed for optimum gas flow to allow faster exhaust exit. The TR exhaust manifold is a direct bolt-on replacement for the stock manifold and fit perfectly with stock turbo or stock based upgraded turbocharger. The kit comes with all the fitting parts such as bolts & nuts, gaskets and heat wrap.

SPECIFICATIONS

Part Number	TR-EM1004
Material	Stainless Steel SUS304
Application	Mitsubishi EVO X (4B11)
