## Equal Length Exhaust Manifold for Subaru Impreza WRX / STi (EJ20/EJ25)

### PRODUCT FEATURES

TR exhaust manifold is made of all stainless steel and built based on its consistently excellent performance results, and high quality finish with 4-1 connectors. With smooth flowing joining faces thus removing any kind of gas flow restriction and provides excellent spool up, smoother delivery of power, & increase in torque. The manifold is supplied with all manifold and turbo gaskets, nuts, bolts, studs, and a 50' x 2" roll of exhaust wrap - everything you need. While losing a little of the Subaru "Rumble" sound, high output gain at top rpm will put your smile in your face!

### SPECIFICATIONS

Type	Equal Length, Single Scroll
Part Number	TR-ES1001
Material	Stainless Steel SUS304
Application	New Age WRX STi EJ25
Manifold Spec	O/D – 42.7mm, Thickness – 2.0mm
	O/D – 45.0mm, Thickness – 2.0mm
Up Pipe Spec	O/D – 60.5mm, Thickness – 2.0mm
