Sept 15, 2011

Tomioka Racing TD06-20G Turbo for Subaru Impreza. Legacy & Forester

PRODUCT FEATURES

Introducing the largest available bolt on turbo replacement for the VF42 and VF52 turbo. The TR TD06-20G turbo is designed for the newer models of Subaru with fly by throttle turbo design. This turbo is made for high end power while maintaining the bolt in design so no additional modification is necessary. This turbo can handle up to 500HP for all your racing needs. Upgraded engine internal is heavily recommended for this turbo.
